

I'm writing to complain about Sinclair Broadcasting and their decision to force their stations to play the program "Stolen Honor" which is nothing more than an anti-Kerry spin advertisement.

By disguising this piece as "news", they are undermining legitimate news programs and outlets.

Also, earlier this year, Sinclair forbid their stations from showing the Nightline tribute to the soldiers who died in Iraq saying that it would not do something political. To do this now shows their partisan nature and are using the station outlets to unfairly bias their viewing audiences (many of which reside in swing states).

At the very least, this is a violation of the equal time rules and they should be forced to carry "Fahrenheit 9/11" to compensate.
